

ENABLING CITIZEN PARTICIPATION IN CLIMATE ACTION AND SUSTAINABLE ENERGY TRANSITION

The gates of the Valentino Castle are going to be opened to citizens and students to discuss on 4 highly topical issues related to renewable energies, water, circular economy, climate actions.

The event will be part of the "Planet Week" that will anticipate the "G7_Climate, Environment, and Energy".

It involves the following activities:

- Debate sessions between different student teams that will compete on the 4 topics ([Registration link](#));
- Digital questionnaires;
- Interviews to assess awareness level on each topic;
- Educational demonstrations of model river flow;
- NbS demonstrators from EU projects in Turin.

The whole event will be held in English language.

22 April

3 – 6 pm (CET)

Valentino Castle Courtyard, Turin
